**Work:** Spiritual Counselling,  
 Regression Therapy  
 Crystal Singing Bowls  
 Soul Singing and Chanting  
 Spiritual healing work

Next to my counselling and therapy job I play with the highly vibrating crystal bowls. These singing bowls I accompany with my soul chanting and singing from my deepest heart.

Amongst other events in Switzerland I also accompanied \*Omneq Onec\*, from Missouri USA (the Ambassador of Love from the Planet Venus) which is a friend of mine, at lectures and events with my sound and chants. At last I have been in Mt. Shasta CA, organized by <http://thepromiserevealed.com> .

To Mt. Shasta I have a special connection, as I used to work together with \*Erik Berglund\*, the angelic singer, harp player healer and spiritual teacher. I organized concerts and workshops with him in Switzerland. (He translated in 2013+)

The sounds of the crystal bowls lead us back to our soul's origin. They help us to experience the connection with ourselves and the entire divine universe. My free-flowing chanting comes straight from my heart and my soul. While I sing, I feel connected with the angelic realms. I open my heart and the sounds flow freely, I improvise and create new melodies and chants in the language of the soul, mostly in combination with the healing crystal sound. It's like a sound channelling. The sound of Crystal bowls is like a connection to other dimensions and to our original existence, and we can feel and know where we come from and how big our spiritual souls are. Through the sound of the crystal bowls you are able to come into a deep relaxation and in a deep healing meditation.
